

Membership Fees

The Sura Academy needs a good financial basis for a good standard in the support of the single members/students.

The aim of the Sura Academy is to support everyone as far as possible on his path when he shows a true spiritual attitude, - independent from his ability to pay fees. On the other hand a low degree of monthly sourcing reduces the possibilities of support to a corresponding low level. Ray del Sole can only invest his spare time respectively can use his business time as much as he can create income to pay his bills. This should be logical and good to comprehend.

So the normal membership fee is set to 27 Euros per month. For those students who are younger and receive only pocket money, the membership fees are reduced to 7,20 Euros per month. Those students with a good monthly income can pay 72 Euros per month or donate to support the Sura Academy.

Besides the need for sourcing it has a deeper meaning to pay membership fees. So I have decided to ask for fees also for those who cannot pay much. The symbolic meaning is very important and essential. It is a symbol for the authentic commitment for the path, for the school and the spiritual brotherhood. Without commitment there is no good in it.
